

# Student SurveyPro 5.0

We are pleased to announce the availability of Student SurveyPro.

Student SurveyPro is the full commercial version of Apian's integrated survey program but comes with no technical support. Your Student SurveyPro does not expire.

SurveyPro is an essential tool for students doing any primary research. You can use any medium – paper, web, kiosk – and you'll save time and effort at all stages of the survey project - when creating the form, entering the data, and analysing the results.

SurveyPro is easy-to-use, flexible, with changes to the survey rippling automatically through the database and reports. It has good reporting and basic statistical analysis. See over for system requirements and eligibility.

Student SurveyPro currently retails for **\$395 including GST**.

Don't delay - respond today and you can start getting surveys done at your own place at your own pace!

**YES!** I would like HRS to email me download details for Student SurveyPro for **\$395**.

I have enclosed my details below and

**proof of my current enrolment:** a photocopy of  
- EITHER my student ID card with **expiry date**  
- OR my **fees receipt for this year**

I will pay by

Enclosed cheque (NB: please post!)  
 VISA or MasterCard details as below  
 Transfer to HRS bank account with YOUR NAME as payer, details as below right

### What you get:

- Changes ripple through questionnaire-database-reports, with extensive crosschecking to ensure data integrity
- Dynamic dialogs show only relevant options for current setup
- Tabs for quick access to open documents
- Tree view of documents, Text Styles, Scales
- Unlimited data entry stations using locked template, protecting original survey file and other data – ask friends and family to help with your data entry!

### Questionnaires & Reports:

- **NEW!** XML import and export when seeking draft input from others, or translating into multiple languages
- Desktop publishing and presentation quality documents
- Drag-and-drop or cut/copy/paste editing in visual interface
- Automatic layout of entry scales with appearance overrides
- Multi-column and/or facing page layouts
- Spell check with customisable dictionaries
- 120 customizable text styles for headings, questions, scales, and captions
- Inline and fixed graphics

### Analysis & Reporting:

- Reports are multi-figure documents with captions, subheads, numbering, footers, etc
- 3000 figures per survey file, 2000 characters per figure caption
- Automatic Executive Summary and Data Table reports
- Comments with paragraph formatting mixed with figures
- Text summary, tables, scatter plots, line graphs, table+bar, 2D or 3D bar graphs, pie charts, and stacked bars figures
- Descriptive & inferential statistics up to chi square for crosstab significance
- Only statistics appropriate to selected question(s) data type appear in dialogs – no need to be a statistician to only present statistically legal analysis

### Web surveys (access to web server required):

- **NEW!** Show respondent's answers for review before submitting, let them print or save their answers
- **NEW!** Log how much time it takes respondents to complete the survey
- No programming or web page design knowledge needed
- Themes for quick application of colours/text styles
- Progress bars with adjustable percentages
- Skips and branching for single & multiple-answer questions
- Use any question as skip/branch trigger
- Complex patterns of nested skips/branches
- Password protection – full set of login types: unique, global, multiple shared-use, and name/password combinations, or dynamically generate unique password file – built on the fly as respondents log in

### OMR surveys

#### (access to Remark Office OMR required):

- Scan your forms using optical mark recognition: export your surveys as ST3 files to use Remark to scan your questionnaire!

### Direct Bank Payment with YOUR NAME as payer

Bank Bank of New Zealand

# Student SurveyPro 5.0 System Requirements

- Any minimum processor/RAM that will run Windows will run SurveyPro
- Windows 98 / NT4 / 2000 / ME / XP / Vista (32-bit format)
- Hard disk with 120MB available hard disk space
- Minimum 800x600 screen resolution

## Web Server Requirements (for HTML/web surveys)

- NT Servers: IIS 5, ASP 2.0 with VBScript 5.0 or higher
- All later Windows servers
- Requires installation of ASP scripts and DLLs – in general this will mean using a web server under your sole control (not an ISP)

## Respondent EMailer Requirements

- Windows NT, 2000, XP, Vista or later
- SMTP email server with full Administrative access/permissions (POP3 and other setups are not supported)

## Student SurveyPro 5.0 Eligibility

You must have a valid student ID with an expiry date. If your student ID does not have an expiry date then a copy of your fees receipt for the current year is acceptable proof of current enrolment.

You must either be enrolled at a New Zealand academic institution, or be enrolled at an overseas academic institution and be studying in New Zealand.
